

UINTAH COUNTY BUILDING

FUTURE RENOVATION PROJECT

Images shown are preliminary concept renderings intended to illustrate the proposed project vision.

Uintah County is excited to present the future renovation of the County Administrative Building. The renovation will enhance accessibility to the County Administrative Building by remodeling its north entrance and adjacent parking lot.

NORTH ENTRANCE

PROJECT OVERVIEW:

Construct a new breezeway with wheel chair accessible access, pitched roof, and sliding glass doors.

BUILDING INTERIOR

PROJECT OVERVIEW:

The interior of the administrative building will be updated to include a new breezeway, an updated entryway and an ADA compliant ramp.

PARKING LOT

PROJECT OVERVIEW:

The parking lot renovation will include handicap parking by the administrative building entrance.

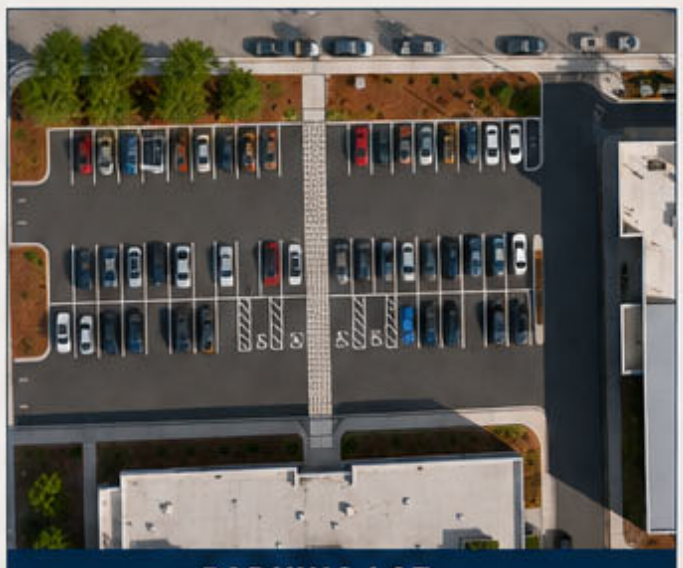

NORTH ENTRANCE

A new, accessible north entrance will feature a covered breezeway, pitched roof, and sliding glass doors for improved access and convenience.

BUILDING INTERIOR

The interior will be updated with a new breezeway, an updated entryway, and an ADA compliant ramp to provide a more accessible and welcoming experience.

PARKING LOT

The renovated parking lot will include handicap accessible parking spaces conveniently located near the administrative building entrance.

IMPROVING ACCESS. SERVING OUR COMMUNITY.

Thank you for your continued support as we invest in a more accessible and functional future for Uintah County.
